

Vaibhav Biturwar | React Native Developer

+91-7000839146 | vaibhavbiturwar@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

SUMMARY:

Detail-oriented React Native Developer with 4+ years of experience in building scalable, performant, and intuitive mobile applications. Skilled in cross-functional collaboration, rapid prototyping, and delivering high-quality apps under tight deadlines.

Technical Skills:

- **Frontend** - React Native, JavaScript, TypeScript, Redux, Zustand.
- **Backend(basic)** - NodeJs, Express.
- **Database(basic)** - MongoDB, MySql.
- **Softwares** - Figma, Photoshop.

Achievements:

- **Employee of the Quarter:** Received employee of the quarter award for Q3 22-23.
- **Magic Moments Award:** For exceptional delivery of the HypeX app. Available on Apple app store.

Experience:

- **Senior Software Engineer:** [CakeSoft Technologies Pvt. Ltd.](#) | Pune, M.H. | 07/2024 - Present
- **Software Engineer:** [Valere Labs. Pvt. Ltd.](#) | Pune, M.H. | 06/2022 - 07-2024
- **Assistant System Engineer:** [Tata Consultancy Services](#) | Pune, M.H. | 11/2020 - 05/2022

Projects:

[Bitcoin Keeper](#) | Platform: Android & iOS

Skills involved: Bitcoin | React-Native | NodeJS | Redux-Saga | RealmDB | Push Notifications | NFC | FastLane CI/CD

Bitcoin Keeper is an [open-source](#), self-custody Bitcoin wallet designed for experienced Bitcoin users. It offers advanced features for secure asset management and inheritance planning.

- Built encrypted cloud backup/restore and multi-user support for enhanced accessibility and security.
- Integrated hardware wallet support (TwentyTwo Portal, Krux, Coldcard Q) with remote key sharing and message signing.
- Developed concierge service integration and Bitcoin-based subscription features.
- Enabled crypto swaps functionality via LetsExchange.
- Managed app releases and developed APIs with backend service deployment.

[AthesAI](#) | Platform: Android & iOS

Skills involved: React Navigation | Zustand | Push Notifications | React Native FFMPEG | SSE | React Native FS | MixPanel

This app delivers curated sports and skills-based videos to athletes and an AI-powered chatbot that offers personalized assistance and insights tailored to individual sports interests.

- Implemented SSO login for seamless authentication.
- Enhanced performance with image and video caching
- Optimized video upload speeds to achieve 60% of Instagram's performance benchmark.
- Integrated mixPanel for user activity tracking, AI chatbot using SSE, .
- Developed an Instagram-inspired video tile layout.

[HypeX](#) | Platform: iOS

Skills involved: React Navigation | Redux | Thunk | Apple Maps | React Native Vision Camera

A social media application, reminiscent of Instagram, encompasses the following key features:

- The app boasts a geospatial mapping feature that empowers users to explore posts from designated geographic regions, utilizing immersive 3D iOS maps for an enriched experience.
- Users can indulge in a full-screen video reels view, providing an immersive and captivating way to engage with multimedia content.
- The application incorporates a robust Firebase authentication workflow, ensuring secure and efficient user registration and login processes.
